ABOUT ME

AI Engineer focused on LLMs, multi-agent architectures, and modern data stacks. At QKare Information Technologies, I design agent orchestrations and RAG pipelines using LangChain and LangGraph, integrating them into production-ready environments with FastAPI. I also build modular data models (dbt + PostgreSQL) and analytics-ready layers powering Superset-based BI workflows. With a strong Deep Learning background, I deliver end-to-end generative and analytical AI solutions.

WORK EXPERIENCE

🏢 QKare Information Technologies – Sivas, Türkiye

Website: www.qkare.com.tr/en/ | Business or sector: Information and communication

AI Engineer

[02/06/2025 – Current]

- Built and optimized **multi-agent architectures** using **LangChain** and **LangGraph**, handling agent routing and orchestration via **FastAPI** and **Pydantic**.
- Developed **LLM-to-LLM evaluation** scenarios, refined prompts for multi-model consistency, and prototyped **RAG pipelines** using **ChromaDB**.
- Designed modular data models with **dbt** on **PostgreSQL**, transforming raw enterprise data into analytics-ready layers.
- Developed and optimized **Apache Superset** dashboards aligned with business KPIs, customizing CSS for visual consistency.

🏢 Inncrea Yazılım Bilişim San. Tic. Ltd. Şti. – Sivas, Türkiye

Website: www.inncrea.com.tr/ | Business or sector: Information and communication

Deep Learning Intern

[05/08/2024 – 09/09/2024]

- Trained **CNN models (ResNet18, VGG16, DenseNet)** for medical image classification, applying **data augmentation** and 3-fold cross-validation to improve generalization.
- Optimised GPU memory and tracked key metrics (**Accuracy, F1-Score**) to drive performance-based architecture adjustments.

🏢 T.C. Sivas Valiliği | Governor of Sivas – Sivas, Türkiye

Website: www.sivas.gov.tr/bilgi-islem-sube-mudurlugu | Business or sector: Information and communication

IT Intern

[31/07/2023 – 25/08/2023]

EDUCATION AND TRAINING

Bachelor's Degree

Sivas Cumhuriyet University [09/2021 – 07/2025]

City: Sivas | Country: Türkiye | Website: www.cumhuriyet.edu.tr/ | Field(s) of study: Computer Engineering

Erasmus+ Participant

AGH University of Krakow [09/2023 – 03/2024]

City: Krakow | Country: Poland | Website: www.agh.edu.pl/en/ | Field(s) of study: Computer Engineering

AI Specialization Program

National Technology Academy [12/2024 – 06/2025]

Country: Türkiye | Website: www.milliteknolojiakademisi.gov.tr/

SKILLS

AI & LLM Engineering

LangChain / LangGraph / Agentic Systems / Multi Agent Workflows / Prompt Engineering / RAG Pipelines (LangChain, ChromaDB) / LLM-to-LLM Evaluation / Pytorch / CNN Architectures / Ensemble Models / Knowledge Distillation / Data Augmentation / LiteLLM*, Langfuse* (familiarity level)

Backend, Data & Infrastructure

Python / FastAPI / Pydantic / Apache Superset / dbt (Data Build Tool) / Data Modeling / PostgreSQL / Data Cleaning/Generation / SQL / Git, GitHub, GitLab / Streamlit (rapid POC UI development) / Docker (container usage, basic config) / Java (OOP fundamentals) / Redis*, Milvus* (familiarity level)

PROJECTS

[20/02/2025 – 25/06/2025]

TEKNOFEST: Stroke's Diagnosis with Deep Learning

- Engineered an **ensemble model** combining 6 architectures with a **Knowledge Distillation** pipeline (**InceptionV3 to EfficientNetB0**), achieving a **98.3% F1-Score**.
- **Applied** data augmentation to balance CT datasets, alongside external validation to detect device-based domain shifts.

[12/08/2024 – 2025]

TUBITAK: Alzheimer's Classification with Deep Learning

- Built training and preprocessing pipelines for Alzheimer's/MCI classification using the **ADNI dataset**, reaching **98.3% accuracy** in baseline tests with **ResNet18** and **DenseNet121**.
- Evaluated additional architectures (**VGG, EfficientNet**) and implemented augmentation strategies to handle class imbalance and guide model optimization.

CERTIFICATIONS

[Huawei, 16/10/2025]

HCCDA-AI (Huawei Certified Developer Associate - AI)

[National Technology Academy, 03/01/2025]

Artificial Intelligence Basic Training Certificate

LANGUAGE SKILLS

Turkish: Native

English: B2 - C1

RECOMMENDATIONS

Name: **Doç. Dr. KALİ GÜRKAHRAMAN** | Supervisor

We collaborated on both the TEKNOFEST and TÜBİTAK 2209-A deep learning projects, where he was my primary advisor. His guidance on model development, data workflows, experimentation, and overall technical direction played a key role in shaping and advancing the projects.
